

Beautiful Floors. Healthy Living.

Woven Engineered - Dyed
Midnight Dance

An EcoTimber floor is more than beautiful wood or bamboo flooring

Since 1992, EcoTimber has been the only flooring company devoted to forest protection and healthy homes. You can trust that an EcoTimber floor, no matter which one you choose, meets the very highest environmental standards.

Our Mission

EcoTimber brings positive change to the way forest ecosystems are managed worldwide by offering wood products that only come from the highest standards of sustainable forest management. Also, we are committed to providing our customers with high-quality, beautiful, and healthy products that are free from toxic materials. EcoTimber will always remain on the cutting edge of environmental awareness and action. Our professionalism will demonstrate that highly ethical business practices can be sustained without sacrificing financial success; proving that integrity and passion can go hand in hand with profitability.

Our Products

EcoTimber offers a wide range of beautiful domestic hardwoods and select bamboo and poplar flooring. All EcoTimber flooring is milled in standard formats, and we offer warranties that match the very best in the business.

Purchasing eco-friendly wood products does not mean sacrificing beauty, durability or ease of installation.

Our Services

EcoTimber provides full technical support, including but not limited to data sheets for our bamboo and hardwood flooring products, specification guidelines, samples, and installation instructions. We ship daily throughout North America, and we are experienced with overseas cargo as well.

Our Customers

Our customers include well-known companies like Nike, Disney, Pottery Barn, Patagonia, and Whole Foods Market, as well as architects, designers, builders, developers, corporations, and countless home owners.

We sell into the single-family homeowner market through our network of 500 Authorized Dealers, and into the commercial marketplace through our growing network of Authorized Flooring Contractors.

EcoTimber Flooring

Since 1992, EcoTimber has promoted forest conservation worldwide by selling only sustainable harvested and reclaimed wood products. EcoTimber offers a wide range of domestic hardwood and select bamboo and poplar flooring products which meet the highest environmental and health standards.

Responsible Forestry

Logging does not need to harm or destroy the world's forests. Natural forests can be managed carefully in ways that preserve their diversity and the services they provide. Buying sustainably harvested, Forest Stewardship Council (FCS) certified wood promotes responsible forestry practices and helps to conserve forests for future generations.

Healthy Homes

EcoTimber flooring is manufactured without harmful chemicals and toxic additives. Our floors meet the stringent E1 and 2012 CARB standards for indoor air quality and help preserve a safe environment in the home or office.

Enduring Quality

EcoTimber products are designed and crafted with the highest quality standards to ensure lasting beauty and unsurpassed endurance for many years. An investment in an EcoTimber floor offers superior performance and piece of mind.

Value Engineered

EcoTimber products deliver value backed by the latest design and flooring production technologies. EcoTimber flooring is available in diverse formats ranging from solids to strand wovens to the latest developments in engineered designs and easy –to–install profiles. An EcoTimber authorized dealer can help you select the best floor for your residential or commercial application.

Innovative Design

In partnership with leading factories throughout the world EcoTimber sources both classic and contemporary styles in an array of fashion-forward colors for discriminating buyers. Check out what's new at EcoTimber today!

Woven Solids

EcoTimber's Woven Solids are crafted from select bamboo and poplar. A highly renewable resource, Moso Bamboo matures in just 5-6 years after being planted. EcoTimber Bamboo is plantation-grown (not harvested from wild forests) and requires no pesticides, herbicides or chemical fertilizers.

Bamboo

- *Amber*
- *Honey*
- *Toffee*

Poplar

- *Evening Harvest*
- *Afternoon Tea*
- *Last Dance*
- *Anticipation*

Woven Engineered

EcoTimber's woven engineered products are designed for maximum stability under demanding applications. Engineered products are made without urea-formaldehyde and meet the E1 and 2012 CARB standards for indoor air quality.

Classics

Product Specification

Dimensions

Thickness: 9/16"
Width: 3-7/8"
Length: 72-7/8"

Hardness

3000 per Janka scale
233% as hard as Red Oak

Construction

Solid stand woven bamboo flooring
Tongue & groove all four sides, Micro-beveled edges.

Finish

Matte sheen aluminum-oxide enhanced UV-cured acrylic urethane with scratch-resistant hardened to-coat

Product Featured *Engineered Dyed - Embolden*

Product Specification

Dimensions

Thickness: 9/16"
Width: 4-3/4"
Length: 72-7/8"

Hardness

2800 per Janka scale

Construction

3-layer engineered strand woven bamboo flooring
Tongue & groove all four sides, Micro-beveled edges

Finish

Matte sheen aluminum-oxide enhanced, UV-cured acrylic urethane with scratch-resistant hardened to-coat

Product Featured *Walnut Gala*

Product Specification

Dimensions

Thickness: 1/2"
Width: 5"
Length: 23"-47-1/2"

Hardness

1010 per Janka scale

Construction

5-ply prefinished engineered wood flooring with 3mm thick top layer, Fold-down mechanical locking system all four sides. Micro-beveled edges. Innovative thermal treatment process creates natural color through the full thickness of the top layer, so even deep scratches won't reveal a different color underneath.

Finish

Matte sheen, ceramic enhanced, UV-cured acrylic urethane with scratch-resistant hardened top-coat
